ROCK PLANT SPECIALISTS

Camp St. Ext.

—

Barre, Vermont

Up in a nook of the Green Mountains the nursery of Sky-Cleft Gardens is rapidly growing. Here the vigorous rootstock and high standards of the **JAMES MITCHELL NURSERIES RARE ROCK PLANT COLLECTION** are being continued.

On a high, rich field running into a maple wood with a vista of the hills in the distance there is the painstaking, enchanting work of caring for and experimenting with hundreds of varieties of rock plants, wildflowers and perennials from every corner of the world. I am grateful that more and more of you are showing enthusiasm in the effort and that plants from this nursery are finding their way into successful gardens all over America.

This year you will find many additional varieties on our list. But our goal is yet far off and we look forward with you to the never ending adventure of adding more variety and beauty to our collection.

Donald Allen,  
Proprietor and Nurseryman

**VISITORS WELCOME TO OUR NURSERY**

**on weekdays and Saturdays**

From Barre business center go up route 302 East for about 1 mile. Then take first left turn above cemetery and upon reaching brick school turn left into Camp Street. Proceed straight up Camp Street hill for 1 mile to sign Sky-Cleft Gardens on right.
